Isn't it time to vacation your way?

Vacations: Not a luxury...a necessity.

Whether it's a quick weekend getaway or a lavish two-week excursion, vacations are not a frivolous luxury — they're essential to our health! Regular vacations reduce stress-related illness and assure us relaxing time with loved ones — away from the pressures of daily life. This is the time to build those family memories, while children or grandchildren are still young — memories they'll cherish years later after they're grown and on their own.

The secret to getting more out of every vacation: *Owning it!*

Because your vacation time is so valuable, it should be filled with fun and relaxation — not uncertainty and disappointment. That's why vacation ownership is the best choice for traveling families. With hotel rooms, the space tends to be too small for families, and the amenities and services can vary greatly from location to location. With vacation homes, you face expenses all year long for perhaps a week or two of use and you're limited to the same destination, year after year.

Vacation ownership is the unbeatable way to enjoy far more vacation value for less money. Not only are you assured consistently high-quality accommodations — but you also enjoy exclusive travel perks, services and savings that most travelers never experience:

- A "Home Away From Home": Imagine the whole family enjoying an old-fashioned breakfast at the roomy dining table. Or grabbing extra zzzs after a long, leisurely bubble bath in your private master bathroom. These elegant condo-style units offer all the comforts of home...and sometimes more!
- More amenities: Have the midnight munchies? Grab a treat from the kitchen fridge and pop it into your microwave. Toss those wet swimsuits or play clothes right into your own private washer/dryer. Pop a movie into the DVD/VCR for the kids. You'll love the added conveniences!

- Exclusive owner travel services and savings: You'll reap extra savings from our airfare and entertainment discounts, as well as other travel privileges and benefits.
- All the pleasures of a vacation home: Every homeowner knows owning a home — even a second vacation home — means extra responsibility all year long. Wyndham Vacation Resorts ownership assures all the comforts without the responsibility!
- An asset for now and the future: Not only will you look forward to memorable vacations the rest of your life...but you'll also pass on this wonderful gift to your children and grandchildren. They will enjoy great vacations the rest of their lives, too.

Best of all, vacation ownership motivates you to set the time aside regularly for vacations — which is so important to your health. Research proves that two million-plus Americans who own their vacations use more vacation time than non-vacation owners and are highly satisfied with their purchase. And the number of new owners is skyrocketing — over 300,000 people each year! Isn't it time you discovered the same freedom and value that so many of your fellow travelers now enjoy?
